

INVITATION AND FIRST ANNOUNCEMENT OF THE 9TH PLANTA EUROPA CONFERENCE

The Secretariat and Steering Committee of Planta Europa and the Organising Committee invite you to participate in the 9th Planta Europa conference which will be organized on 25-27th June, Eger, Hungary .

It is a great occasion for meeting of the botanical society of Pan European countries and further regions and to meet people who helped to form Planta Europa as a community for Plant conservation through 30 years.

The slogan of the conference is: Cooperation, Action and Restoration in Plant Conservation. We hope you can join us in any of these activities and we can organize a valuable conference for future achievements!

Eger is one of the historical towns of Hungary and it is situated near the Bükk National Park so we have good possibilities for field excursions after the conference. The Bükk National Park Directory is also our partner in the conference organization.

Our aim to bring together people and organisations, who helped this botanical community to survive and being active for 30 years. Eszterházy Károly Catholic University will be the host university of the conference.

Please join us and be the part of this great event in 2025!

The Steering Committee of Planta Europa
